

WOMEN'S FINANCIAL CLIMB IS OFF ROAD

BEING LEFT OUT OF THE GAME

2.7% of Venture Capital Dollars went to female founded companies in 2022. For Co-founded between men and women it jumps to 16.5% according to Pitchbook.

SLEEPLESS NIGHTS

Depending on age, women are more concerned with the economy, and cutting back on spending, or cost of child care and housing prices. Men tend to be worried about volatility in the stock market and crypto.

CARRYING THE BULK

66% of student loans belong to women according to Education Data Initiative.

FEELING LESS INFORMED

Nearly 70% of women say they have never met with a financial advisor vs 41% of men

BUILDING CONFIDENCE

Fidelity study of 5 Million clients found women outperformed men by 4%

GOING THE DISTANCE

Half the widows over 65 outlived their husbands by 15 years.

YOU STILL WORK HERE?

Despite the reasons and ratios being almost identical for leaves of absence from the workplace(50% their own health, 30% care for someone else, etc.,) it appears, women are still undervalued.
